

## Forum for the Built Environment Lunch

Nick Wylie, Lend Lease; Iain Wright MP; Peter Hurley, Construction More

Birmingham's property community packed into the Hyatt to hear Labour's shadow construction minister, Iain Wright's analysis of the sector. Just turned 40, he is seen as one of his party's rising stars. The event was organised by the Birmingham branch of the Forum for the Built Environment, and sponsored by the Midland arm of the developer Lend Lease, which is in the final stages of a £330 million project to transform 21 of the city's schools, colleges and academies.
